

## Lightning Creek Ski Club

### Meeting agenda

February 1, 2021

6:30 pm

**Attendance:** Falko Kadenbach, Michelle Klapatiuk, Karcsi Peter, Jennifer Boudreau, Rene Tudhope, Julie Backer, Dave Frappier, Kristyna Tomek

**Regrets:** Marianne, Roland

#### **President's Report:**

Training has been fantastic; coaches, athletes and members have been enthusiastic and engaged this season. A big shout out to Caleb and Freya as they team up with our coaching staff to learn a bit from each coach. The energy a young coach brings to the athletes especially in the young ages is fun to watch. A few members participated in Sunday night search for past due skier from PG this past weekend. It was great to have some many people willing and able to assist to ensure the individual was found before dark. We are all looking forward to our mid season assessment day next weekend. There will be a big emphasis on keeping our clusters to a minimum at key times of the day. All activities will be below tower 6 to allow us to use the blue lift if it is busy which it will likely be with all the new snow.

**Vice President Report:** VP absent from today's meeting.

#### **Treasurer's Report:**

We will be looking at the detailed budget/spending report next meeting. Currently working on consolidating/organizing our financial system through Quickbooks.

Account balance: \$45 838

Gaming balance: \$16 248

#### **Registrar Report:**

The last of club fees through payment plans are coming in today. A few liability waivers are still needed and being sorted. Registration is in order, we are still trying to get one child registered and working with parents to do so.

#### **Alpine Report:**

- Grace and Emma are both very happy with the way the season has been going.
- Working with BC Alpine and Wade to get on-snow portion of coaching course and coaching certification to happen. GS panels and hero gates have been bought by Roland on behalf of the club.
- Estimate/proposal for wireless timing system has been put in to Quesnel Community Foundation.

Falko: Via Sport did not approve our request funding. We should consider some infrastructure projects that we are interested in and have them "shovel-ready" so we may be able to tap into the numerous infrastructure grants that are out there. This would require the club to have some money available to add to grant funding and is something to discuss further in the off-season.

**NGSL Report:**

- We will be providing bag lunch for kids. These will be handed out in controlled groups of two from the door of the club cabin as athletes finish their second glalom run.
- We are looking good for volunteers. All volunteers need to be cross-checked to ensure waivers through SportsEngine are signed.
- Thank you Dave for organizing prizes for all kids. We can call kids up a group at a time and have them chose quickly ensuring to avoid crowding and congregating.

**Coaches Report:**Assessment Day Details:

There will be 10 teams of 5-6 athletes. Teams will be posted on Saturday. Whatever setup possible will take place on Saturday afternoon. Setup will be completed early Sunday morning and the course will be set by coaches. At 9 am, teams will meet and conduct course inspection. Start at 10. Each athlete will do two runs of glalom. We will match athletes by skill-level for glalom. Finish by 11:15. Upon finishing their second run, kids will immediately be sent to collect their lunch. We will start again at 1, with half of participants on speed trap and half on moguls. Athletes will do two runs on each.

We will not be acknowledging individual times but rather using combined times per team. Coaches will use individual times to provide feedback to athletes the following week.

Rules: 5-6 athletes per team; A combined 'Team Time' will be calculated for each glalom, moguls and speed trap. This will be calculated by adding the top 4 times within a team, per activity, using combined athlete times from two runs.

We will ask to borrow 6 forestry radios from BK. Scott is going to groom and fill the bottom of the Shaft for us to have a nice finish line. Wade is here this weekend, working with alpine kids.

**Special Olympics Report:**

The program is not running this season.

Next Meeting: **March 1, 2021**

Adjourned: 7:42
